Gary,

The CES Environmental Services, Inc. (As of February 13, 2015) pdf is very informative. After reviewing previous Fact Sheets and the 8.13.12 Action Memo, I cannot find language that quantifies the total amount of waste removed from the site in terms of gallons, pounds, tons.

Do you have an approximate number we can use for the fact sheet to summarize hazardous wastes removed from the site to date? I think it would be more effective than stating numbers of vats, tanks, drums, etc.

Thank you.
